*Growth & AI Systems Lead*

Medellín, Colombia · santiagomahecha2328@gmail.com · +57 313 468 7899 · LinkedIn · Portfolio

## PROFESSIONAL PROFILE

As a Growth & AI Systems Lead, I design and run the systems that turn acquisition, sales and customer service into repeatable growth: paid-media funnels, CRM automation, WhatsApp AI assistants and the production software behind them. At Incentiva Group I lead that work for brands such as Samsung, Nequi, Wompi and Colmaíz (Ingredion): 2M+ LifeMiles miles were awarded to buyers through the WhatsApp chatbot of the Samsung × LifeMiles promotion, and the Colmaíz assistant has reached 35,000+ contacts and served 6,000+ of them. My criterion is the same at every scale: start from how the operation really works, automate what a system can run reliably, measure it end to end, and keep people in control where the risk is. A marketing background and hands-on product and engineering leadership let me design the strategy and the systems that run it together.

## PROFESSIONAL EXPERIENCE

### Incentiva Group
*July 2026 – Present*

***Operations Manager***
Medellín, Colombia (Hybrid)

- Took over three production platforms, among them ChatFlow, which runs the Colmaíz (Ingredion) WhatsApp assistant. I brought them under version control and automated pipelines, and grew their test suites to more than **13,000** automated tests.
- Architected the move of Scope, Incentiva's custom app for the Nequi field teams, from one client to a multi-client platform, with a database per client and fail-closed tenant isolation. Wompi went live on the same platform, and the rollout passed **146** of 146 checks.
- Shipped the field-sales app's first iOS release and **13** production versions across the App Store and Google Play, resolving three App Store review rejections.
- Launched a sales channel end to end for Incentiva as an authorized DIRECTV dealer: strategy, a Meta click-to-WhatsApp campaign with 7 ads and 62 creatives, and an AI sales assistant that pre-qualifies leads and reports conversions back to Meta.
- Led the security reviews of the company's products and their remediation, test-first: hardened sign-in with two-factor authentication, encrypted secrets and tenant-isolation tests.
- Led the Samsung × LifeMiles WhatsApp promotion: I took over its chatbot, rebuilt it for a high-volume promotion, rewrote its prompt and directed its fraud controls (deterministic IMEI validation and a second model on identity documents). **2M+** LifeMiles miles were awarded to buyers through the chatbot.
- Redesigned Incentiva's brand identity (a 78-page manual and a 357-file kit) and designed and built the new 28-page corporate website. I rolled the brand into the company's software, removing about 750,000 lines of unused template code and halving the client portal's initial bundle.

### Quick Metal Shop
*January 2026 – July 2026*

***Growth Marketing Specialist***
Puerto Rico, USA (Remote)

- Designed and ran an AI video production pipeline that turned the company's before-and-after project photos into short-form reels: its three flagship reels reached **338K+** organic views with $0 in ad spend.
- Created the company's Brand Manual, defining the full visual identity (color palette, typography, tone of voice) that became the operational standard across the entire organization, including the ArquiExpo 2026 trade show stand, recognized as one of the strongest presences at the event.
- Built a Zapier-to-Odoo CRM automation to route B2B leads from Meta Instant Forms directly into the CRM in real time, eliminating manual data entry and closing a critical gap in the lead pipeline.
- Designed and built a custom app for the company's ArquiExpo 2026 stand, so the sales team could show the full product catalog and its real-world projects on a vertical touchscreen. Built with Next.js, deployed on Netlify, and fully responsive across all devices, including iOS Safari.

### Dakoma Roofing
*May 2026*

***Growth Marketing Consultant (Freelance)***
Florida, USA (Remote)

- Executed a full rebranding initiative. I delivered a Brand Manual that redefined the color palette, typography system, and logo usage guidelines, then rolled it out across the company's website, social media profiles, and advertising assets.

**Cuatrimotos ATV Riders** *February 2026*
***CRM & Automation Consultant (Freelance)*** Bogotá, Colombia

- The system organizes the **200+** WhatsApp leads that arrive every day into a queue prioritized by intent, so sales advisors start with the contacts most ready to buy.

**Artesa Panadería** *January 2025 – December 2025*
***Marketing & Customer Experience Analyst*** Bogotá, Colombia

- Designed and deployed an AI-powered WhatsApp chatbot integrated with Bitrix24 CRM to automate lead qualification and initial customer interactions, handling **85%** of conversations without human intervention.

**Aseneg** *July 2024 – January 2025*
***Commercial and Marketing Intern*** Bogotá, Colombia

- Executed outbound marketing initiatives by researching prospects, identifying opportunities, and supporting direct outreach strategies.

**Concentrix** *July 2022 – October 2024*
***Customer Service Representative*** Bogotá, Colombia

- Awarded Top Performer (2023), ranked among the highest in service quality, case resolution accuracy, and customer satisfaction scores across the support team.
- Handled complex and sensitive cases involving security, fraud, and account transfers in a high-volume support environment.

## TECHNICAL STACK

- **Product & Engineering Leadership:** Directing AI coding agents (Claude Code: spec, plan, test-first, review) · Multi-Tenant SaaS Architecture · Mobile Release Management (Xcode, App Store Connect, Google Play) · CI/CD (Azure DevOps Pipelines) · Incident Response & Reliability · Test Automation (Vitest, Playwright, xUnit, Flutter tests)
- **Apps & APIs:** Flutter / Dart, .NET / C# (EF Core), Angular, React, TypeScript, Node.js, Next.js
- **Cloud:** Azure (App Service, SQL, Application Insights), Netlify, Vercel
- **Security & Compliance:** Security reviews and remediation, two-factor authentication, secret management, data-protection compliance under Colombia's habeas data law
- **Automation, AI & Systems:** AI Chatbot Design & Deployment · LLM Application Design (grounding, structured output, model calibration, prompt-injection defense) · WhatsApp Cloud API · Meta Conversions API · Lead Qualification Automation · CRM Workflow Design (Bitrix24, Kommo) · API & Integration Architecture (Salesforce, Google Sheets) · Zapier Automation · Prompt Engineering & AI-Assisted Workflows (ChatGPT 6.1 Sol, Claude, Gemini)
- **Marketing & Growth:** Digital Marketing Strategy · Meta Ads (B2B, B2C and click-to-WhatsApp) · Media Planning & Unit Economics (break-even cost per lead) · Lead Generation & Funnel Optimization · Content Strategy & Social Planning · SEO Strategy & Implementation · Brand Systems & Asset Kits

## EDUCATION

**Universidad Piloto de Colombia** · Bachelor's Degree in Marketing · Bogotá, Colombia · 2020 – 2025
**SENA** · Technical Degree in Administrative Assistance · Bogotá, Colombia · 2017 – 2018
